

>_ Client Brief

StumbleGrumble

Scope of Work:

- I am a well-to-do billionaire and I love getting blackout drunk but have a terrible habit of not eating beforehand. I need you to build me an app so I can find my way to a restaurant that is still open after I finish taking care of business at the bar.

Requirements

- Use the Google Places API (<https://developers.google.com/places/web-service/intro>)
- User should be able to search for nearby restaurants that are open past midnight
- Restaurant should display menu hours, locations, phone number, price??
- User should be able to select a restaurant, and get directions because they are drunk
- The app should be easy to use since the target demographic is people who are currently drunk

Deadline:

- Wireframes by Wednesday
- Beta by Friday
- Final by the following Wednesday

Deliverables:

- Project up on GitHub
- Project live at URL (can be gh-pages URL)
